OUR PRINCIPALS

OUR PRINCIPALS

HORIBA
Process & Environmental

HORIBA
(Japan)

Horiba manufactures and sells Air Quality, Emission Monitoring, Process Analyzers, Process Water, Water Pollution, Thermometer, Gloss Checker and Radiation Monitor.

RENISHAW
apply innovation™

RENISHAW
(UK)

Renishaw produces a wide range of Raman Spectroscopy instruments including Raman microscopes, portable analyzers and bench-top systems.

elementar
EXCELLENCE IN ELEMENTS

ELEMENTAR
(Germany)

Elementar is the world's leading manufacturer of analytical instrumentation measuring carbon, nitrogen, sulfur, hydrogen, oxygen, or chlorine in organic and most inorganic material.

Ellutia
Chromatography Solutions

ELLUTIA
(UK)

Ellutia is a leading independent manufacturer of innovative Gas chromatography instruments.

SYRRIS

SYRRIS
(UK)

Syrris is a world-renowned company for the production of Batch and Flow Chemistry Systems.

Gerhardt
Analytical Systems

GERHARDT
(Germany)

Gerhardt systems are used in determination of Nitrogen, Protein, Fat and Fiber, Chemical Digestion, Distillation, Extraction, Hydrolysis and Heating & Drying.

OUR PRINCIPALS

ELEKTROCHEMIE HALLE

ECH
(Germany)

ECH offers world's best coulometric Karl Fischer Titrators and Potentiometric Volumetric Titrators.

OXFORD
INSTRUMENTS
(UK)

Oxford Instruments offers NMR spectroscopy and time domain (TD-NMR) relaxometry solutions enable novel research and optimize quality control.

ICSPI
(Canada)

After nearly 10 years of research and development at the University of Waterloo, ICSPi commercialized the world's first single-chip atomic force microscope (AFM).

AMETEK
(USA)

A comprehensive range of Materials Testing Machines, Force Measurement Machines, Digital Force Gauges, Torque Gauges, Grips, Fixtures, Load Cells and Accessories.

RDM
(UK)

RDM is the world's leading manufacturer of Heat Sealability, Seal Strength & Hot Tack Heat Sealers for the Lab, Pilot Plant & Production, Physical Strength & Material Properties, Permeation of Barrier Materials, Package Integrity, Surface & Optical Properties, Sample Preparation and Laboratory Equipment.

NICOYA
LIFESCIENCES
(Canada)

At Nicoya, the mission is to improve human life by helping scientists succeed and Surface Plasmon Resonance (SPR) is the way to do it.

OUR PRINCIPALS

NORDANTEC (Germany)

Nordantec GmbH is developing and manufacturing Polarography based on voltametric technique.

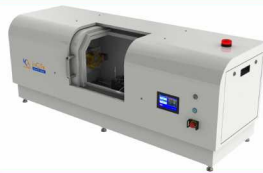

GRIMM by DURAG GROUP (Germany)

GRIMM AEROSOL takes pride in its "made in Europe" optical aerosol measurement systems and is one of the best-known companies in the field of dust monitoring.

KA IMAGING (Canada)

KA Imaging Specialized in innovating and creating high-performance products for using cutting edge advances in X-ray technologies.

LSI (Italy)

LSI's product range includes meteorological sensors, weather stations, data-loggers, software as well as installation and mounting accessories.
